Local Lore

An early recipe for corn pudding—"Take of green corn 12 ears, and grate it; to this add a quart of sweet milk, a quarter of a pound of fresh butter, four eggs well beaten, pepper and salt as much as sufficient; stir all well together, and bake four hours in a buttered dish. Some add to ingredients a quarter pound of sugar and eat the pudding with sauce. It is good, cold or warm, with meat or sauce, but epicures of the most exquisite taste prefer it we believe hot, and with the first service."—Town Historian.
